Our company has been in business for 32 years. We employ an average of 100 people, annually. Our field of work is New Residential plumbing in the Orange, Los Angeles, Riverside and San Bernardino counties. We install plumbing systems in approximately 1,000 new homes every year.

We agree and fully support the proposed modifications regarding PEX tubing, as issued on July 10, 2008. This includes the modifications issued for all agencies listed:

Building Standards Commission(BSC)

Division of the State Architect-Structural Safety(DSA-SS)

Office of Statewide Health Planning and Development(OSHPD)

Housing and Community Development(HCD)

We believe that PEX tubing should be a clear option for use in any jurisdiction in California.
